In 1986, we founded THE MOST FAMOUS HOTELS IN THE WORLD. We searched the globe to create an unique list of all famous hotels. From there we started to record the fascinating sagas of this select group in an unparalleled series of books.

Over 380 hotels have become Select Members of The

Most Famous Hotels in the World. Now we have researched the history of most of the hotels listed and we have published an extensive collection of books including the most popular names of the traveller's world. Every year new books are added to the library, which are collected by The Friends of The Most Famous Hotels in the World.

Our readers follow the footsteps of the world's greatest globetrotters and enjoy the pleasures of luxurious hospitality in the grand tradition.

Do join us in our club of The Friends of The Most Famous Hotels in the World by becoming a corresponding member and be among an exclusive group of discerning travellers. Privileges include invitations to book launches and opportunities to purchase first editions.

Yours sincerely
